

CHAMREUN VIRA

Software Engineering Intern

ABOUT ME

Computer Science student and aspiring Software Engineer with hands-on experience building full-stack web applications using Java, Spring Boot, React, Next.js, PostgreSQL, and Redis. Experienced in REST API development, authentication, database design, and third-party integrations through academic and personal projects. Passionate about learning modern software engineering and contributing to real-world projects.

PROJECTS

Ecommerce Website | Full-Stack Development

Next.js | Spring Boot | PostgreSQL | Redis

Mar 2026

- Developed product, inventory, customer, and order management.
- Built RESTful APIs with authentication and authorization.
- Developed a responsive admin dashboard.
- Integrated KHQR payment and Telegram notifications.

School Management System | Backend Development

Java | Spring Boot | PostgreSQL

Feb 2026

- Developed RESTful APIs for authentication, students, instructors, departments, classes, and subjects.
- Implemented Excel import/export for academic and user records.
- Designed APIs for course scheduling and academic management.

Social Media Website | Full-Stack Development

React.js | TypeScript | Spring Boot | PostgreSQL

Jan 2026

- Developed a full-stack social media platform.
- Implemented JWT authentication and user management.
- Built post, comment, like, and friend management features.
- Designed RESTful APIs and PostgreSQL database.

BACII Grade Tracker | Frontend Development

React.js | Tailwind CSS | Local Storage

Apr 2025

- Built a responsive BACII score calculator based on Cambodian grading criteria.
- Added calculation history and Local Storage for saved records.

CERTIFICATIONS

- Cisco Networking Academy – Introduction to Networks, 2026
- Huawei – HCIA-Datacom V1.0, 2026
- Huawei – HCIA-Cloud Computing V5.5, 2026

#261, Boeung Salang
Toul Kork, Phnom Penh

EDUCATION

Royal University of Phnom Penh

Bachelor of Computer Science in
Information Technology | Expected 2028
2024 - Present

Instinct Institute

Short course frontend development
2024 - 2025

SKILLS

PROGRAMMING

Java, JavaScript, TypeScript

FRONTEND

React, Next.js, TailwindCSS

BACKEND

Spring Boot, REST APIs

DATABASE

PostgreSQL, MySQL, MongoDB,
Redis

TOOLS

Git, GitHub, Docker, Postman

LANGUAGE

- Khmer (Native)
- English (Intermediate)
